Dear Mr. Johnson:

Re: Disposal of Empty 30-Gallon Cyanide
and Dichromate Drums from
Johnson Controls, Inc.
Goshen, Indiana

This letter acknowledges the request for disposal dated
February 9, 1983, from Mr. Stanley D. Leedy, Johnson Controls, Inc.

Approval is hereby granted for disposal of sixty-five 30-gallon
empty containers of trace amounts of cyanide and dichromate at the
Four-County Landfill, OPP. No. 25-2, Fulton County. The waste is to be
disposed of in the separate disposal area of the landfill and covered
with a minimum of 12 inches of cover soil by the end of the working day.

The approval is granted subject to the following conditions:

1. The generator and/or hauler must contact you to notify you of
the time of disposal and conditions of shipment.
2. If nuisance or pollution conditions are created, immediate
corrective action will be taken by the operator.
3. This approval will expire June 1, 1983.

This approval will be revoked if the landfill fails to maintain
compliance with 320 IAC 5-1, et seq. (Regulation SPC-18). Any necessary
local approval must be obtained from the Fulton County Health
Department. The waste must be transported by a hauler who holds a valid
permit issued pursuant to 320 IAC 5-10, et seq. (Regulation SPC-17).

If you have any questions, please contact Mr. Ted Warner of the
Hazardous Waste Management Branch at 317/633-8525.

Very truly yours,

Ralph C. Pickard
Technical Secretary

Dear Mr. Warner:

This letter is written to request permission to dispose of approximately (35) empty 30 gal. cyanide drums and 30 empty 30 gal. dichromate drums in the Four County Landfill at Rochester, Indiana.

The cyanide drums are visually empty and clean, however, trace amounts of granules may be present around the bottom seam. The dichromate drums have a poly liner and would contain small amounts of liquid, however, it would be far less than 1" or .03% of original capacity. The solution originally in these drums is a propitiatory dichromate solution that contains Chromic Acid.

We normally fill these drums with plating waste treatment sludge and then through the Manifest Regulation they are disposed of at Four County Landfill. Due to our use of 55 gal. drums for sludge these 30 gal. drums have accumulated and must be removed from our property.

Thank you very much for your prompt return of my call Wednesday, February 2, 1983. If there are any questions please call Stanley Leedy, Johnson Controls, Inc. 219-533-2111.

Sincerely yours,

JOHNSON CONTROLS, INC.

Stanley Leedy
